We Say a Fond Farewell

As he announced at this year’s Graduation Ceremony, after twelve years as the WA College of Agriculture-Denmark Principal, Kevin Beal will be retiring at the end of this year.

Kevin has led the College through a significant period of growth and improvement during his principalship. Student enrolments have almost doubled over the past decade. The introduction of an Equine program and an ATAR pathway has seen our girl numbers increase from about 20% of the cohort to almost 50% this year. In fact next year it seems we will have slightly more girls than boys in the College residence. A new Automotive Trade Training Centre and a state-of-the-art Robotic Dairy are just two examples of important additions to the College’s training facilities that Kevin has overseen.

Kevin leaves the College in a position of strength and on behalf of the school community I would like to congratulate him on his achievements and wish him all the best in his retirement. Deputy Principal, Kevin Osborne
The end of the year is almost upon us, planning for next year is nearing completion, graduation is behind us and enrolment days for our new group of students will have occurred before this newsletter arrives home. The dust that is 2016 is beginning to settle!!

The year has been incredibly busy and 4th Term even more so. Graduation held a few weeks ago was a wonderful conclusion to the year and I’m sure a highlight for our Year 12’s and a celebration of their time at the College. They leave with a file full of qualifications and some wonderful experiences and memories and some lifelong friends. We wish them luck in their future pursuits and hope they stay in contact with the College. Nicola Pontifex a graduate from 2008 was our guest speaker. Nicola recounted some of her experiences at the College and her journey through universities in WA and the United States to her current position with Emerald Grains. She also highlighted the importance of the education she received at Denmark and the benefits it had provided. Nicola is a great ambassador for the College and a model for what can be achieved and the opportunities available to young people in our Industry. While award winners will be highlighted elsewhere I would like to congratulate the Dux of the College, Ethan Riemer and the VET Dux Patrick Swallow for their outstanding achievements over their time at the College.

Before leaving our graduates I would encourage them all to join the Old Collegians Association as a conduit to the College and a mechanism for staying in contact with their colleagues and events such as reunions. While on the subject of reunions the Old Collegians Association is planning a Reunion in 2017 to celebrate the 75th anniversary of the establishment of the College. It will be in a luncheon format in October. We will keep you informed.

As we near the end of the year it is appropriate to look back at the many highlights over the year and while I mentioned most of them in my graduation speech I think it appropriate to highlight them again. The commissioning of the Stan Ravenhill Robotic Dairy that has taken us to the forefront of the industry in Western Australia is pretty special. This dairy provides us with the opportunity to train the dairy workers of the future and I’m sure they will be sought after. The Colleges achievement of Independent Public School status is also very special and we are looking forward to the challenges of implementation and improved outcomes for our students.

One student is a finalist in the prestigious VET Certificates of Distinction Award- yet to be announced and 4 students achieved a Certificate 3 in Agriculture, this is the first time students from Denmark have achieved this qualification. I am also looking forward to the results of our ATAR students confident they will do well.

One of our Farm Skills teams won that competition at the Perth Royal Show by the closest of margins- half a point! This is a hotly contested competition from all of the Colleges conducted in good spirit and highlighting the many skills our students acquire in their time at the Colleges. The competition leads on to the Royal Show proper and the College winning the Agricultural Colleges and Schools trophy for the 19th consecutive year which is a wonderful achievement and recognition of the effort that Mr Knight, the farm staff and students put into the show and its many competitions.

It has truly been a memorable year and these are but a few of the highlights.

At this time of the year, there are always staff moving on and I would like to briefly mention David Nunn who has been on staff now for a couple of years teaching our ATAR Plant Production course amongst other things. He has been a wonderful addition to our staff and we wish him well as he moves on to ‘other things’.

Aly Artemis has been with us for a year teaching English and Equine Studies. She has been a colourful addition to our staff and has won a position at Great Southern Grammar. We wish her well.

Libby Corson who has had her retirement interrupted to come back and teach English will return to her more relaxed life. We thank her for her support and contribution to the College and wish her well in retirement.

With the departure of staff it heralds the return of others. Kylie Warburton has been on maternity leave for several years and returns to teach English. It will be terrific to have Kylie back, she is a very dedicated teacher. Daniel Gibbins also returns to teach Agriculture after taking leave and working at Muresk for a couple of years. Daniel is very committed and we look forward to his return.

And finally I’m sure all parents will be aware by now that after 12 years and with a degree of sadness I have decided to retire at the end of the year. I have reflected on my time at the College and I’m proud of the progress made over that time. I would like to acknowledge the wonderful staff in all areas, for sharing the vision. Without their support and input little would have been achieved.

I have seen many wonderful students graduate over those years, I have some terrific memories and it has been an amazing experience.

There have also been many positive changes in my time which I won’t go into but I am confident I leave the College in a strong position, recognised as a strong alternative to mainstream high schools that provides...
opportunities and pathways for practical as well as academic students. Our student numbers are strong, female students out number male students in residence in 2017 for the first time ever reflecting the changing face in the Agricultural Industry.

I would like to thank parents for their support and take the opportunity to wish all parents’ staff and students a very Merry Christmas and a safe and prosperous New Year.

Kevin Beal
Principal

Several prestigious scholarships and awards were presented at the recent Graduation Ceremony, signifying the high level of talent and leadership qualities among students at the WA College of Agriculture - Denmark and the support by both the agricultural and educational sector. We thank our sponsors of the Graduation Program.

Ethan Riemer was announced the College Dux 2016, for the student with the highest achievement in all course areas in Year 12 along with several other major awards, while graduating students Robyn Adams and Year 10 student Jessica Pike, were awarded the Australian Defence Force 2016 Long Tan Leadership and Teamwork Awards recognising leadership qualities in these two students. Emma Wynne was the very popular recipient of the Citizenship Award, arguably the most important award of all.

The Caltex Best All Rounder Award saw Sarah Stutley join the ranks of a select group of Australian students chosen to receive this prestigious award, which also recognises leadership qualities along with excellence in academic, leadership, sporting, and community service activities.

The highly prized Royal Agricultural Society Scholarship was awarded to Year 11 student Makayla Cockman, while the Charles Sturt University Agribusiness Prize went to Cameron Geddes to assist a student to fulfil their goals through tertiary study.

Patrick Swallow received the Top VET Award for excellence in vocational education training along with many other certificates of excellence and the Stud Merino Breeders Association Scholarship went to Year 11 student Casey Perkins who has shown a particular interest in the sheep and wool industry.

The Old Collegians George Elliott Memorial Scholarship which assists students with further agricultural studies, was awarded to Ben Marsh, a Year 11 student and the Denmark Chamber of Commerce Award was presented to Sam Marsh for demonstrating outstanding aptitude in business management.

A WA Farmers Agricultural Ambassador Scholarship - a new initiative between WA Farmers and the Department of Education WA, was won by Year 11 student Charlie Cloud. The scholarship recognises agricultural college students with a strong interest in the industry, and will support their growth and development within their chosen agricultural field.

Year 10 student Kayla Emmerton won the Shire of Denmark's Agricultural College Scholarship aimed at students who are likely to pursue agricultural pursuits within the Shire’s boundaries into the future.

Numerous Certificates of Excellence were also awarded to well deserving students who excelled in their areas of study throughout the year. Congratulations to all of our graduating students and to those returning to the College in 2017.
From the Deputy

We are still receiving expressions of interest from students hoping to enroll. We ask parents to inform us as soon as possible if their child is not returning...

2017 Year 12 Student Prefects

Congratulations to Shannon Hull, Lacy McAlinden, Emma Steele, Angus Thomas and Leah Winter who were recently elected as our Year 12 Student Prefects for 2016. Students and staff vote on the make up of this important leadership group and we couldn’t be happier with the outcome. I look forward to our new Student Prefects returning to the College on Monday January 30 2017 to assist with the Orientation Program for new students.

Enrolment Days

Our Enrolment Days for incoming 2017 students will take place on Thursday 8 December and Friday 9 December. These are important days designed to best prepare new students for the start of the 2017 school year. Students are provided with their 2017 timetable and have the opportunity to try on and purchase uniform items. It’s also an important opportunity for parents and students to share information with the College so we’re as best prepared as we can be to meet the needs of incoming students.

2017 Intentions

The College is still receiving expressions of interest from students hoping to enrol in 2017. While we tend not to lose many of our students before they graduate, we have had a couple of Year 11 students recently pick up apprenticeships for 2017 which has created a vacancy for students on a waiting list to come into residence. We also know that the personal circumstances for students and their families can alter and bring about a change of plan and direction. All we ask is for parents to inform us as soon as possible if their child is not intending to return to the College in 2017. That way we can offer their place to someone else on the waiting list.

Semester Two Reports

Semester Two Reports will be posted out to parents in the last week of term. These reports will provide details of their child’s 2016 course and VET achievements.

2016 Parent Survey

We have decided to leave the 2016 Parent Survey open until Thursday 15 December. At the moment we only have 31 completed surveys with a large number of partially completed surveys (26). The feedback that we receive from parents is vitally important to our continuous improvement processes, so we’re hoping the additional time will boost the number of completed responses.

This year’s online parent survey can be completed by accessing the following link:

https://www.schoolsurvey.edu.au/s/ccvCx6Tc

Start of 2017 School Year

- All new Year 10, 11 and 12 students required to be at College by 12 noon on Monday January 30 2017.
- Previously enrolled Residential students return after 3pm on Wednesday February 1 2017.
- Previously enrolled Day students return to College at 8.00 am Thursday February 4 2017 for the start of the normal timetable.

On behalf of the staff at the WA College of Agriculture, Denmark I’d like to wish all our parents and students a merry and safe Xmas and New Year season.

Kevin Osborne

Kevin.Osborne@education.wa.edu.au
Around the College...

Angel Gowns—Helping Hands

Year 10 students decided to engage with a somewhat delicate topic when seeking to raise funds for a charity as part of a humanities and social science project. They chose “Angel Gowns” a nationally registered Charity that provides services to bereaved families who have experienced the stillbirth or death of a baby. The charity uses donated wedding dresses to hand craft “Angel Gown” garments which are then donated to hospitals, funeral homes and directly to families.

Left: Janine Meyn on left receives a cheque for $1,000 from Lilly Le Sueur who led the project.

Farmers of the Future

Year 10 Animal Production Systems students were given the opportunity to learn from some of the best in the industry when attending a practical learning session at Futura Alpaca Stud. Greg and Judy Smith established Futura Alpaca Stud in 1993 and have recently been host to students from the College who are learning about selective breeding and fleece traits. Greg and Judy say that the South Coast’s mild climate coupled with high rainfall ensures lush pastures which make it perfect alpaca country. With a high profile, particularly in the show ring, our students are lucky indeed to be able to learn in the field from breeders of this calibre.

Right: Students from the Year 10 Animal Production Systems class pictured with Greg & Judy Smith and their prize winning Alpacas.

Poultry Science

Raising chickens in the classroom might not be considered the norm, but at the College almost anything is possible. Students enjoyed the experience of incubating chicks and raising the birds under stringent conditions to ensure premium health. Regular health checks, weighing in and the odd cuddle were all part of the program.

Above: Georgia Keast and Lily Loessl. Centre: Claudia McGarry. Right: Logan Chappell and Sam Pratt weigh in.
Congratulations to the graduating Class of 2016. We have said our farewells to the Year 12 2016 students but not goodbye, their exams are over; they are free to reflect and celebrate their years of schooling and their time at WACoA – Denmark. As a collective and as individuals they have made an excellent contribution to the College. Congratulations also to the students who received awards in recognition of their hard work.

Vehicle Forms

A reminder that you must have a signed vehicle permission form on file BEFORE you return to the College with your vehicle. The forms are available from the front office, from the website: www.denmarkag.wa.edu.au
or from me upon request. A new form must be completed at the start of each year. Please note: keys must be handed in after each use, not doing so will be in breach of the Vehicle Policy and will put the approval at risk.

Leavers Jackets

The Leaver’s Jacket Committee have designed a jacket for next year and I am waiting for the design team of our supplier to provide some ‘proofs’ of the design. A Facebook ‘group chat’ page has been set up by members of the committee (Claudia Budrikis, Ben Snell, Thalia Walker, Emma Steele, Niven Brown - to name a few). Please make contact with the committee members to add yourself to the group so that you can view the design.

I will also require a preferred name for the back of the jacket; if a suitable nickname is not supplied your surname will be used.

The order will be placed before the end of the school year and will arrive at the commencement of Term 2, 2017. Jackets will need to be paid for prior to their collection.

School Ball Committee 2017

A School Ball Committee has been formed and we are in the process of deciding a theme and a venue. I have put forward the preference to use the Riverside Club as it is situated down the road from the College. This venue has recently been built and is very attractive. Given its proximity it reduces the travel time transporting students to the event.

Please find below some of the rules regarding attendance at the School Ball and requirements regarding leave etc. More comprehensive information will be in our Information Booklet and parents will receive more detail prior to the event. The Ball will be held in Term 2, 2017. The date will be advertised shortly.

The ball is an exciting event on the school calendar and forms an important part of the students’ social life on campus. To ensure that it is also a safe event, and to discourage students from attending ‘afters’ parties, it is our preference that students return to the College after the ball. Students will only be released on the Ball night from the College to Parents or Guardians. No students will be allowed to self-drive from the College on the Ball night.

As this is a school initiated activity, students are required to abide by the established school rules. Where there is a breach of any of these rules, contact will be made with parents and appropriate action will be taken. This may include, parents being asked to collect their son or daughter from the College ball. Students are reminded that the College has a no tolerance policy in relation to alcohol and other drug use.

Students can leave residence after the ball according to the following guidelines:

It would be appreciated if parents/guardians could please adhere to these times as it helps the return program run smoothly. Please call Kelli Gillies on 0428 480 203 if you have any questions.
collecting them (this needs to be a parent or guardian). This will then be approved by the College. If your child is on the Ball Committee they will be required to stay back and assist with the clean-up. Please take this into consideration when completing your leave forms.

**Laundry**

Any clothing without a name tag and not collected will be donated to Red Cross at the end of the year. Please contact the laundry staff or myself if you are looking for anything specific. You can email me at kelli.gillies@education.wa.edu.au

**College Uniforms**

Can you please check your child’s uniform in preparation for 2017 and make sure students are not wearing clothing that is too small, is ripped or stained. Boots should also be checked. We do have some second hand uniforms and you can contact me for that information.

**Travel Arrangements for End/Start of Term**

The College organises travel arrangements to meet the above TRANSWA requirements. All other travel arrangements throughout the term are to be arranged by Parents/Carers. A cost of $100.00 will be incurred for the College to drop off and pick up students. Please note: Parents/Carers are requested not to book return tickets to arrive in Albany at 9.05pm on a Sunday evening as this causes disruption to the College residential program. Thank you.

Wishing you all Happy Holidays. Peace, Love, Health and Happiness to All.

**Kelli Gillies**

Kelli.Gillies@education.wa.edu.au

**Residential Activities**

**Arts In Action**

Music: Students from the Certificate II in Music Performance performed at Open Day 2016, the Denmark Community Fair and at the new Denmark Arts Centre in the Brave New Works festival. Former student Sam Le Breton who now studies at WAAPA was featured at the arts centre performance. Students also had the opportunity to attend the WAAPA Radioactive concert in Albany. Music will be re-commencing in Term 2, 2017.

Jarramunda: A group was formed this year for students to learn to play the didgeridoo and perform indigenous Corroboree dance and Welcome to Country under the stewardship of indigenous Elder Joey Williams. Thwarted by weather this year, it was intended to camp in the Stirling Ranges and learn more about indigenous culture and bush foods.

Wetlands Exhibition: Year 10 student Luke Barker took part in the Brave New Works Wetlands Insect Exhibition with an outstanding metal sculpture incorporating a spider web, blow fly and spider. It would be great to see more students participate next year.

In 2017 students will be able to take part in a variety of workshops at the new Denmark Arts Centre and the Community Resource Centre.

**Water Sports**

Students will also be able to participate in a variety of water sports during the summer months, from surfing and snorkelling to yachting, recreational skippers ticket, scuba diving and both beach and boat fishing expeditions.

**Woodwork**

The free form furniture making course saw some innovative design with a wide range of projects. There will be an addition to the program in 2017 with ‘boat building’ at the Denmark Boatshed.

**Nigel Levinson**

Nigel.Levinson@education.wa.edu.au

**Left:** Luke Barker with his sculpture now gracing the wall of the College Science Lab.

**Below Left:** Students from Certificate II Music, Alex Waldis and Logan Chappell (seated) join ex students Sam LeBreton and Calvin Craig in a performance at Brave New Works.

**Below:** Lily Loessl shows how it’s really done when de-mounting from the tightrope event during the Beach Carnival at Ocean Beach.
From the Farm...

Although the Farm supervisor is on Long Service Leave, there is still plenty of activity on and around the farm...

Viticulture

The vineyard is flourishing with a good flowering in the Shiraz, Merlot and Pinot varieties. Year 10 students should be proud of their mid-winter pruning program and will see the fruits of their labour come vintage in March-April 2017.

A new spray unit has been purchased for vine spraying with predominantly organic spray. A highlight of the year was the release of the East River Vineyard Sparkling Pinot at Open Day.

Horticulture

The horticulture program is almost complete, somewhat later than usual due to the long cold wet winter. Potato, beetroot, silver-beet and coriander crops have been harvested and marketed, with leeks and broad beans still to come.

Rosella and basil plants propagated in the hothouse are being sold to nurseries, while corn, pumpkin and rosella crops are being established prior to Christmas. Students are to be commended for their support of this section.

Alpaca Shearing

A group of year 10 students took part in an alpaca shearing program at the Irvine property in Denmark. Students participated in all facets of the process including restraining the animals, fleece sorting, toe clipping and needling the animals. Codey Baxter, Wil Evans, Ben Hegney, Willem Coetzee, Travis La Bianca, Jack Nairn and Charlie Richardson are to be commended for great teamwork and behaviour in the public arena.
The shearing shed was a hive of activity throughout November—Makayla Cockman, Amy Pollard and Courtney Carroll clean up the fleece while Jay Montgomery prepares to shear.

Below: Year 11 Agricultural Studies students visited Katanning Saleyards where they experienced sale of stock by auction, market requirements, and operation of saleyards. The students then went on to do their own research on technology used, the auction process and beef and cattle prices.

Above: Courtney Practico won Junior Judging Alpacas at the Albany Show and is pictured above with team mates David Pell and Tayla Batty. Congratulations team.

Find us on facebook
Follow us for regular updates about events happening at the College. Visit our Photo Gallery to see the activities your child is involved in and share our facebook page with your friends.

www.facebook.com/DenmarkAgCollege
As mentioned by Kevin Beal earlier in this newsletter the Year 12 Graduation was an outstanding success and I’m sure a memorable occasion for all students, parents and College staff.

To all graduate students congratulations and well done. It has been a great pleasure working with you over the past two years.

Congratulations to all prize and scholarship winners, you are all very worthy recipients of the awards.

Year 11 ATAR Camp

Claire Petrie and I took ten Year 11 students on an ATAR support camp to Perth and Northam in early November. The purpose of the trip was to promote university study as a real option after completing Year 12, specifically the Agricultural Science course at the University of WA, the Agribusiness course at Curtin University and the Animal Science programme at Murdoch University.

We also visited Muresk Institute where a number of different tertiary options are available. They include a Bachelor of Agricultural Business Management through Charles Sturt University and an Integrated Diploma of Agricultural Technology through the University of Queensland. Students are also able to complete a vet nursing qualification and Level 3 VET competencies in Agriculture.

Hopefully the camp provided plenty of information on the choices available for tertiary study in agriculture in WA and allowed our students the opportunity to experience life on a University campus.

My thanks to Alysia Keppert (Agricultural Education) for her help with the organisation of the visit and to Claire Petrie for her assistance while on tour.

Year 12 Exams

Fourteen College students completed external WACE examinations in Animal Production Systems, Plant Production Systems, Mathematics, Biology and English in early November. The students involved and their teachers spent a great deal of time revising and preparing for these exams over recent weeks. Best wishes to the students involved and thank you to our ATAR teachers for your dedication and hard work over the past 12 months.

Computer Network

As most of the College community is aware, the WA College of Agriculture-Denmark will once again have a very high student enrolment in 2017. As a result the computer network will come under pressure. It is highly recommended that all College students have access to their own computer next year. Students using a computer at the school will be able to use the College network to access the internet via the Department of Education filtered proxy server.

Desktop computer and laptops are usable in residential rooms and will be connected with a cable that must be supplied by the students i.e. CAT5e and CAT6 cables 2 or 3 metres in length are suitable. We also suggest using a mouse with laptops if students are using them for long periods of time.

All operating systems are able to connect to the wired network system. The College is currently using Windows 7 machines in classrooms, with Office 2010 software. If you require additional information please contact Mr. Mark Boynton on 9848 0200. I can also be contacted on 9848 0207.

2017 Learning Programme

College staff have reviewed the 2016 College programme and made changes for next year.

Course selection forms were sent out to parents/guardians at the end of last year. I understand some current Year 10 and 11 students are still undecided on subject selections for 2017. If parents/guardians require further information for course options, pathways, University entry or VET programmes, please contact me by email or telephone.
Contributions, Fees and Charges 2017

The 2017 Contributions, Fees and Charges booklet together with the 2017 Uniforms, Stationery and Residential Requirements Booklet is now available online:

http://www.denmarkag.wa.edu.au/admissions/fees-charges/

I would encourage all parents and carers to review both of these documents. The Contributions, Fees and Charges booklet details the maximum contributions and charges the College can request from parents and carers through the course of the year as well as course fees and charges for each study stream.

Reminder of Outstanding Fees

Please ensure that all outstanding fees and charges are cleared before the commencement of the 2017 school year.

For residential students, residency will be denied in 2017 if there is an outstanding balance. In this circumstance, students can continue their education program as day students. If you have already discussed your balance with me, this condition does not apply.

Office Hours

The College administration office will be closed from 17 December 2016. Limited staff will return from 16 January 2016 with all staff returning from 25 January 2016.

Email communication is preferred during the close down period.

Further Contact & Information

As always, please don’t hesitate to contact the friendly administration team or myself with any questions or concerns regarding your account at the College on:

(08) 9848 0200 or email denmark.wacoa.finance@education.wa.edu.au.

Wishing everyone a safe and enjoyable holiday break!

Craig Armstrong
